4 Declaration of intent to undergo a TB test

In order to obtain a residence permit, you must be prepared to undergo a tuberculosis (TB) test in the Netherlands and - if necessary - treatment. If you are granted a residence permit, you will actually have to undergo a TB test within three months after having received your residence permit.

When you are in the Netherlands, you should make a TB test appointment with the Municipal Health Service (GGD) in the area where you live or will be living (for further information visit the website www.ggd.nl).

Should it become clear after the issue of a residence permit that - despite signing the declaration of intent - you failed to undergo a TB test within the period of three months, this may result in a cancellation of the permit that was granted.

Please note! The obligation to undergo the test does not apply if you are a national of one of the countries listed in the appendix '[Exemption from the obligation to undergo a tuberculosis \(TB\) test](#)'.

> Please check either one of the following two boxes

- ☐ I hereby declare that I am prepared to cooperate in a tuberculosis test and any treatment. I am aware of the fact that I must undergo a TB test within three months after the residence permit has been received. If I fail to do so, this might have consequences for my right of residence in the Netherlands.
- ☐ I do not need to undergo a TB test because I am a national of one of the countries listed in the appendix '[Exemption from the obligation to undergo a tuberculosis \(TB\) test](#)'.
